

PC Biotin-Azide

Product No.: 1119

Product Name: PC-Biotin-Azide

Alternative Name: Photocleavable Biotin-Azide

Chemical Structure:

Molecular Weight: 825.37

MW left behind: 100.07

Chemical Composition: C₃₅H₅₅N₉O₁₂S

CAS Number: N/A

Solubility: DMSO, DMF, MeOH, DCM

Storage: Upon receipt store at -20°C. Product shipped at ambient temperature

Appearance: Slightly yellow amorphous solid

Shelf life: At least 12 month at -20°C

For research use only
