

Dde Biotin-Azide

Product No.: 1136

Product Name: Dde Biotin-Azide

Chemical Structure:

Molecular Weight: 695.37

MW left behind: 100.07

Chemical Composition: C₃₂H₅₃N₇O₈S

CAS Number: N/A

Solubility: DMSO, DMF, MeOH

Storage: Upon receipt store at -20°C. Product shipped at ambient temperature

Appearance: Glass-like solid

Shelf life: At least 12 month at -20°C

For research use only
