

Disulfide Biotin Azide

Product No.: 1168

Product Name: Disulfide Biotin Azide

Chemical Structure:

Molecular Weight: 692.91

MW left behind: 188.25

Chemical Composition: C₂₇H₄₈N₈O₇S₃

CAS Number: N/A

Solubility: DMSO, DMF

Storage: Upon receipt store at -20°C. Product shipped at ambient temperature

Appearance: Glass-like amorphous solid

Shelf life: At least 12 month at -20°C

For research use only
